CAREER OBJECTIVE

Armed with a solid foundation in **Full Stack Development**, I am seeking a challenging role in an IT company where I can leverage my technical expertise, problem-solving skills, and passion for innovation and development.

EDUCATION QUALIFICATION

- Pursuing BTech in **Computer Science and Engineering** at **Gandhi Institute For Technology, Bhubaneswar** affiliated to **Biju Patnaik University of Technology, Rourkela** passing in **2025**.
- Completed intermediate in Science from **Khaira Higher Secondary school (CHSE Board)**, in the academic year **2021** with **72.5%**.
- Completed Matriculation from **Gadapokhari High School, Gadapokhari (BSE Board)** in the academic year **2019** with **73.16%**.

TECHNICAL SKILL

- MS OFFICE (WORD, POWERPOINT)
- Programming Languages: C, JAVA, JavaScript, Python
- Web Development:
 - Frontend: HTML, CSS, JavaScript, React
 - Backend: Express Js
 - Database: MongoDB, MySQL
- Tools: Git, GitHub
- DSA problem solving

ACHIEVEMENTS

- Got 3 stars in **Hackerrank** and 2 stars in **Leetcode** for problem solving.
- I participated in a **hackathon** organized by **Aspire Info Labs** in May 2023 in **Gandhi Institute For Technology** campus where my team and I developed a prototype of a website where patients and doctors can interact for consulting. Our solution received positive feedback from judges.

INTERNSHIPS AND TRAINING

1. GLUCIAN INDIA PVT. LTD

- During the internship period on front-end web development fundamentals, I immersed myself in HTML, CSS, and the entire web development process.
- I learned how to craft visually appealing, fully functional websites using HTML and CSS.
- I also learned **Bootstrap** a CSS framework which is used in frontend development.

2. ASPIRE INFO LABS

- Over the internship period, I engaged in an intensive program covering HTML5, CSS3 and JavaScript focusing on web technologies.
- This comprehensive learning experience helped me to create sophisticated blog pages and professional portfolio websites using HTML and CSS techniques.
- I also learned product testing like finding bugs or errors of a web page.

PROJECTS UNDERTAKEN

➤ Color Brain Game:

- **Technology Stack:** HTML, CSS, JavaScript
- **Description:** Created a web game where user has given 30 seconds to choose color of generated random words and after the game end it will show the result.
- **Project link:** https://chandanp01.github.io/color_brain_game/

➤ Resume:

- **Technology Stack:** HTML, CSS
- **Description:** Created a static web page which shows my expertise, experience, education, interests etc.
- **Project link:** <https://chandanparida.vercel.app/>

➤ Weather App:

- **Technology Stack:** HTML, CSS, JavaScript
- **Description:** Created a web page where user can search any location and it will be showing the current weather conditions like temperature, humidity, wind speed of that location. I used a free weather API to fetch the weather data of the location which is user searched for.
- **Project link:** <https://chandanp01.github.io/weather-app/>

➤ Login signup page:

- **Technology Stack:** HTML, CSS, JavaScript
- **Description:** Created a login signup page using proper validation.
- **Project link:** <https://chandanp01.github.io/login-signUp-page/>

STRENGTHS

- Self-Motivated & Self Learning
- Time management
- Team Player
- Problem solving

HOBBIES

- Reading news
- Traveling
- Listening to music
